

Cosmos[®] 612 Semi-Automatic Flag Label Applicator

The **Cosmos[®] 612 Flag Labeler** is a semi-automatic label applicator that applies "flagged" labels onto cylindrical products, such as hoses, belts and cables. Hunkar's engineers can customize the flag labeling system to accommodate a wide assortment of product sizes. The heavy duty aluminum construction and solid state circuitry assures dependable performance in virtually any work environment.

LABELER FEATURES

- Heavy duty aluminum construction
- Split pad to hold label during application
- Dense foam wipe-down rollers to ensure even label application
- Easily adjustable supply roll tension clutch
- Powered waste rewriter
- Rotary thumbwheel allows user to select desired feed length
- Made in U.S.A.

OPTIONS

- LCD Label Counter: Displays number of labels dispensed
- Programmable Counter: Allows unit to be stopped after preset number of labels
- Demand feed dispensing with footswitch: Dispenses next label on demand
- Adjustable photocell for special applications
- Custom engineered product handling
