

Cosmos[®] 612 Bottle Labeler

The **Cosmos 612 Bottle Labeler** is a semi automatic labeler that dispenses and applies labels easily and repeatably to cylindrical products up to one gallon in size.

This motor driven unit uses a "C-Thru" Eye for detection of die-cut labels. Labeling is accomplished in a single process that automatically dispenses pressure sensitive labels and wraps them around the cylindrical surface of a bottle or tube or other round product.

Features:

Standard caddy capable of labeling products 13" long, from 1/2" to 6-1/2" in diameter

Spring loaded drive handle to allow easy label loading

Easily adjustable supply roll tension clutch Hard coated peel edge

C-Eye Label detector (die-cut labels only)

Hard coated peel edge

Rear powered waste rewinder - Winds scrap liner out of operator's way and off the floor

Gas shock returned wrap drive and feed switch

Heavy duty aluminum plate construction

Rotary thumbwheel allows user to dial in desired feed length

Options:

- Front/Back: Allows application of different labels on front and back of bottle in one application
- Hot stamp imprinter or ink coder
- Custom mandrels for thin walled tubes
- Custom caddy for other sizes
- Programmable (preset) Counter: Allows unit to be stopped after preset number of labels

Specifications:

Core Size: 3" I.D. Standard (other sizes optional)

Label Size: Up to a maximum 6" width

Motor: 241 oz. -in. torque, 72 RPM, 120 VAC

Machine Dimensions: 19" Wide x 24" High x 36" Long

Power Requirements: 120 VAC (240 VAC optional)
