

Model 60 PRINT ROLL-TO-ROLL

The Hunkar Print Roll-To-Roll consists of the Model 60 Stand Alone Rewinder with unwind caddy and integral base plate for a thermal transfer printer. This configuration provides the ability to print and rewind full size rolls of labels.

REWINDER FEATURES

- Heavy duty aluminum construction
- 6" web width (Model 60)
- Heavy duty motor: 451 oz.-in. torque, 72 RPM, 120 VAC
- Adjustable Mounting Plate for thermal transfer printer
- 12" supply roll with 3" core allows you to use larger label rolls than printer media supply space allows
- Made in U.S.A.

OPTIONS

- 12" web width (Model 120)
- Programmable Counter for precise counting of labels.
- 16" O.D. supply/rewind roll
- Bar code verifier units
- Core adaptors to accommodate assorted inner diameter core sizes
